Homeopathy is a unique medical science that incorporates personalized medicine with scientific principles based on Nature's Law of Cure. As Dr Rajesh Shah has put in his book 'Even after 200 years, Homeopathy has remained the most ill-understood medical science ever'. It has faced opposition right from its inception, as it promotes a paradigm shift in the approach to treatment of an individual.

In this seminar our expert panel endeavors to elucidate the mystery of Homeopathy, to clear some of the myths that surround it and to clarify the doubts and manage the challenges encountered by the Physicians.
